COLOURED FUEL CERTIFICATION (INCLUDES MARINE DIESEL AND LOCOMOTIVE FUEL)

under the Motor Fuel Tax Act

Freedom of Information and Protection of Privacy Act (FOIPPA)
The personal information on this form is collected for the purpose of administering the Motor Fuel Tax Act under the authority of section 26(a) of the FOIPPA. Questions about the collection or use of this information can be directed to the Director, Policy, Rulings and Services, PO Box 9442 Stn Prov Govt, Victoria BC V8W 9V4 (telephone: toll free at 1-877-388-4440).

INSTRUCTIONS FOR SELLERS

You must obtain a completed and signed copy of this certification form before you sell coloured fuel, marine diesel or locomotive fuel to a purchaser for their own use:

- through a cardlock (including at a terminal rack or bulk plant), or
- in an amount greater than 45 litres.

You must keep this certification on file. You may make additional sales of fuel based on this certification if:

- · the information on this certification is current, and
- you can link each sale to this certification (for example, by an account or reference number).

You do not need to obtain this certification if you:

- transfer the fuel directly into the supply tank of a ship that is in or on the water,
- sell the fuel to a farmer that has provided you a completed and signed Certificate of Exemption – Farmer (FIN 458), or a copy of their valid Farmer Identify Card issued by the BC Agricultural Council. or
- sell the fuel to a purchaser for resale (they must be an authorized coloured fuel seller to purchase coloured fuel for resale).

If a certification is required and you have not obtained one from a purchaser, you must collect tax from the purchaser on the sale of the fuel at the clear motor fuel tax rate (that is, the same rate as clear gasoline or clear diesel) not at the rate of 3 cents per litre. For information on tax rates, see **Bulletin MFT-CT 005**, Tax Rates on Fuels. If the tax you collect is greater than the security you paid on the fuel, you must remit the additional tax.

If you sell coloured fuel, marine diesel or locomotive fuel without obtaining the required documentation and do not collect tax at the clear fuel rate, you may be subject to a penalty equal to the difference between the tax you collected and the tax you were required to collect, as well as additional penalties and interest.

Please Note: You may sell coloured fuel to a farmer exempt from motor fuel and carbon tax if:

- you are delivering the fuel to a storage receptacle on the farmer's farm or the farmer is purchasing on account from a terminal, bulk plant or cardlock, and
- the farmer provides you with one of the following:
 - a completed and signed Certificate of Exemption Farmer (FIN 458), or
 - a copy of their valid Farmer Identify Card issued by the BC Agricultural Council.

INSTRUCTIONS FOR PURCHASERS

You must **provide the fuel seller** with a completed certification form if you are purchasing coloured fuel, marine diesel or locomotive fuel for your own use. You must provide this certification, or an alternative as described above in the case of a farmer, to certify that you will use the fuel for an authorized use.

If you do not provide this certification to the fuel seller before purchasing the fuel as required, you must pay tax at the clear motor fuel tax rate (that is, the same rate as clear gasoline or clear diesel). The only exceptions are if:

- · you are purchasing 45 litres of fuel or less,
- you are purchasing the fuel for resale, or
- the seller is transferring the fuel directly into the supply tank of your ship that is in or on the water.

If you purchase coloured fuel and pay tax at the clear fuel rate because you did not complete this certification, you may be eligible for a refund. The refund is for the difference between the tax you paid and 3 cents per litre if you use the coloured fuel for an authorized use. For more information, please see **Bulletin MFT-CT 003**, Coloured Fuels and Other Substances.

Please Note: You cannot purchase coloured fuel for resale unless you are authorized as a coloured fuel seller. For more information, see **Bulletin MFT-CT 001**, Fuel Sellers.
